DIGITAL BOOKS

Please **don't purchase textbooks** this year **except for French**. All our books will be accessible from a laptop computer. Most textbooks will contain videos, interactive activities, and other resources to assist the students in mastering the content and acquiring skills needed in a specific subject.

There will be a monthly cost of \$20.00 over 11 months (July-May) for this incredible array of academic resources which can only result in a higher level of achievement for every student at Mercy.
